# Program Overview

The City of Brooksville Adopt-A-Street Program recognizes the commitment of volunteers to keep our City's roadways free from litter and debris.

Besides presenting a poor appearance, litter and trash can cause traffic hazards and affect drainage. Adopt-A-Street allows citizens to demonstrate community pride, make a positive statement for a clean, attractive community and help the city reduce costs.

Individuals, community groups, business owners, schools, churches and service clubs are invited to participate. Volunteers, who adopt a minimum of 1/4 mile and conduct litter pickup at least 6 times per year, will receive recognition on two Adopt-A-Street signs posted on each end of the adopted street segment. The City provides trash bags to collect debris and will pick up filled bags.

Organizations are required to participate for at least two years and adoption is renewable annually, given that program requirements are met.

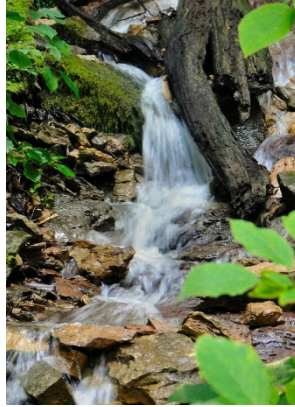

## Recycle!

Collect recyclable materials in separate bags and take them to the nearest recycling center to benefit your organization and our community

## **YOU CAN HELP PROTECT OUR WATERSHEDS AND PREVENT STORM WATER RUNOFF**

In Florida, storm water runoff occurs after a rainfall. Storm water runoff can collect many different types of pollution before it reaches a body of water, including debris, dirt and other chemicals.

The storm water collects these materials and flows directly into a body of water like a stream or lake.

Debris such as plastic bags, bottles and cigarette butts can wash into a water body and interfere with aquatic life. It also isn't very pretty. Other hazardous wastes such as insecticides, herbicides, paint, motor oil and heavy metals can be carried into water bodies with the potential to cause illness not only to aquatic life, but also humans.
